FORGED IRON

 YOUR SOURCE FOR BARNWOOD, MANTELS, RECLAIMED FLOORING, AND MORE

RECLAIMED AND CUSTOM PIECES FOR A ONE-OF-A-KIND LOOK

At Vintage Wood and Forged Iron, we take pride in offering top-quality reclaimed barnwood and hardware and creating custom, hand-forged ironworks. We personally source and prepare reclaimed wood to ensure its quality, and we hand select the metal that we heat, shape, and hammer into custom hardware. Whether you're an architect, builder, or homeowner, we can help create statement pieces for all your home or commercial projects.

When the look of brand-new materials just won't do, rely on us. We offer a wide variety of reclaimed barnwood and hardware, as well as hand-forged iron pieces to suit any style.

WHAT WE DO

RECLAIMED FLOORING

There's no denying the popularity of hardwood flooring, but the warmth, character, and durability of barnwood flooring are truly unparalleled. We typically offer pine, hemlock, chestnut, hickory, white oak, and red oak flooring, with unique characteristics sure to suit any decor.

HAND-FORGED IRON

Sometimes the details make all the difference. From decorative hinges, to wrought iron railings, to brackets for our hand-hewn beams, our team has the experience and skill to create the custom hand-forged iron products that match your vision.

WHAT WE DO

HAND-HEWN BEAMS

If you're restoring a building that predates the Civil War, you'll need some strong hewn beams to provide the proper support. Our hand-hewn beams made from reclaimed wood make that support beautiful. They're also perfect for fireplace mantels and decorative uses, with original brushed hewing marks providing tons of character.

RECLAIMED WOOD

For a one-of-a-kind look and outstanding character, reclaimed barnwood is the go-to material to make your project stand apart from the rest. We have unique woods at affordable prices (call for current availability), and kiln drying is available to remove moisture, stains, and bugs.

OTHER SERVICES

BARN REMOVAL AND RECLAMATION

Have an old barn or vintage wood you no longer need? We offer removal and reclamation services. Let us carefully dismantle your barn and reclaim the wood and hardware, giving these time-tested materials new life.

RECLAIMED HARDWARE

When we reclaim barnwood, sometimes we're lucky enough to find vintage hardware too. We offer hinges, door handles, pulleys, light fixtures, and other pieces to give your projects those perfect period details.

ENGRAVING

Custom engraving makes any piece your own. Our team has the expertise to engrave metal, wood, or plastic with your initials, logo, or other design—so you can truly make your mark on any project.

“ WE COME FROM A LONG LINE OF EXPERT CRAFTSMEN SKILLED IN WOODWORKING AND METAL FORGING, AND WE LOOK FORWARD TO SHARING OUR PASSION FOR THESE TIME-HONORED TRADITIONS WITH YOU. ”
